**MS**

The SW Walk-Behind provides years of dependable operation and an outstanding return on investment. A simple belt-drive design and five-speed transmission make it easy to service and to operate.

- 1 Heavy-duty Advantage™ and Velocity Plus™ cutter decks are constructed for outstanding durability (52" decks are made with a 10-gauge top and 7-gauge skirt; 32", 36" and 48" decks are constructed of 7-gauge steel).
  - 2 Large drive wheels feature rounded edges for better flotation and less turf tearing.
  - 3 Large 5.5-gallon fuel tank features a molded-in cup holder and large filler neck.
- Tough spindle assembly features a cast-iron housing with a heavy-duty flange secured with  $\frac{5}{16}$ " grade-8 mounting hardware. Tapered roller bearings add 50% more load-carrying capacity than ball bearings. Covered by a 3-year limited warranty.
  - Fixed cutter deck adjusts from  $1\frac{3}{4}$ " to  $4\frac{1}{2}$ " in  $\frac{1}{4}$ " increments.
  - Flat-free (semi-pneumatic) front caster tires reduce maintenance costs and keep you in the field, cutting grass.
  - Full commercial-grade construction ensures years of productive use.
  - Productive ground speeds up to 6 mph get the job done fast.
  - Convenient instrument panel puts controls at operator's fingertips. Panel has key, cutter-deck-engagement switch, choke, throttle and digital hour meter.
  - Belt cover has easy-access holes to reach the top spindle nuts for blade removal.

Dependable Ogura clutch engages and disengages the blades quickly and easily. Adjustable air gap for long life.

Five-speed Peerless transmission features nine-spline coupler shafts for durability and a wide selection of forward ground speeds.

Spring-assisted EZ-Grip design reduces hand force required to operate drive controls for maximum operator comfort.

Twin power belts provide double friction to pulley surfaces and reduce slipping in wet conditions.
